

# 1,000 Ton Drilling Spider

## Key Benefits and Features

- Wearable top & bottom guides
- Hinge design allows for easy installation
- Carrier system designed to quickly change inserts
- Utilizes the Interlock System

Use in the following applications: Deepwater and ultra-deepwater Mid-water shelf

The 1,000 Ton Drilling Spider is designed to be used during the drilling and tripping of drill pipe. The use of this drilling spider eliminates the need for different spiders for drilling and tripping, which reduces rig-up

time. The drilling spider includes replaceable guides on the top and bottom of the tool to protect the inserts from being damaged while in use. It can be operated using Frank's Dual Hydraulic Control Console.

## Specifications

Tool Height	53 5/8 inches
Height Above Rotary	7 1/2 inches
Approximate Weight	14,000 pounds
Insert Sizes	6 5/8 inches and 5 7/8 inches
Slips Up Pressure	800 pounds per square inch
Slips Down Pressure	2,200 pounds per square inch
4 hoses connect to tool	
Fits in a 37.5 inch rotary
