

Wrap-around Manual Tong

Key Benefits and Features

- Provides nearly 270° of die contact around the tubular being gripped
- Dramatically reduce the amount of die marking on the pipe body, due to the large amount of die contact, making them ideal for use on CRA materials
- Steel and aluminum die designs available

Use in the following applications:

Deepwater and ultra-deepwater

Shelf

Land

Manual Tong Specifications

Model	Torque Capacity	Pipe Size Range*
F-25	25,000 ft-lbs	1- to 2 7/8-in
F-65	25,000 ft-lbs	2 3/8- to 6 5/8-in
F-85	35,000 ft-lbs	6 5/8- to 8 5/8-in**
F-120	35,000 ft-lbs	8 3/4- inches to 12-in

Use in the following applications: Deepwater and ultra-deepwater Shelf Land

* Any OD tubular within the range listed above can be gripped with special dies upon request. Extra lead time required for special OD dies. Common pipe and coupling sizes normally available.

**F-85 x F-65 die adapter available that will allow the F-85 model to run the pipe sizes listed under the F-65 model.
