## MAXIMUS 10K EXTRA RANGE BRIDGE PLUG

Blackhawk's Maximus Bridge Plug is designed to be run through restrictions and still set securely and hold pressure in larger diameters, eliminating the need to pull tubing in most cases. The Extra Range patented sealing and backup system allow these small plugs to be high pressure and temperature rated.

### FEATURES & BENEFITS

- Wireline, tubing, or coiled tubing set
- 10,000 psi pressure rating available
- 350°F temperature rating
- Carbide button slips allow for setting in casing grades above Q125
- Smaller OD allows this plug to be run through restrictions, like nipples
- Anti-swab/anti-preset characteristics with patented backup and sealing design
- Setting force held in place by internal body lock ring

### SPECIFICATIONS
